Resolution by the Major NGG Tariff Commission

We will not allow the CCE AG executive board to play us off against one another

Berlin, 13 November 2014

We, the Major NGG Tariff Commission comprising representatives of employees from all branches of Coca-Cola Erfrischungsgetränke AG (CCE AG) and its subsidiaries, declare:

- CCE AG has announced an extensive restructuring.
- The end of reusables appears to be a fait accompli, following the announcement that 0.5 L PETs and 1.5 L PETs would be stopped.
- Disposal production only requires a fraction of the staff.
- The “Red Fleet” is also hugely at risk.
- The retail market’s central warehouse strategy poses a threat to our logistics.
- We are lacking clear information on the future focus of CCE AG.

This means:

All employees are affected by the announced drastic changes. No branch, and no employee is safe.

In light of this, the Major NGG Tariff Commission today, 13 November 2014, declares:

That all branches, departments and area join forces.

WE’RE WORTH MORE!
