

Solidarity with Tunisian Workers and Unions

Hammamet, September 25, 2015

Declaration:

IUF affiliates meeting in solidarity with Tunisian trade union confirmed their full support and solidarity to the Tunisian trade union movement and the Tunisian people in their struggle to protect the values of their 2011 Revolution.

Delegates recognized the critical importance of those values of democracy, peace and justice and congratulated the Tunisian people in their courageous and resolute defence of the gains of the 2011 Revolution. Democracy and justice are essential elements in combatting barbarity.

IUF affiliates confirmed that the IUF will always stand shoulder to shoulder with our Tunisian sisters and brothers as they seek to protect those critical democratic values and rebuild their economy following the damage done by the criminal terrorist attacks earlier this year. We recognize that these attacks were targeting the Tunisian economy and democracy and have had serious impacts for the entire Tunisian working class.

The IUF will never cease to support the UGTT and its affiliates in the face of these challenges and we are convinced that together we will come out of this with a Tunisia that is even more democratic and fairer for all.
